Choice of 5 Entrees x 4 Portions of Each Entrée = **20** Individual Meals

Containers:

For your first service, BPA-free disposable containers will be included at no extra cost. For each additional service a \$10 disposable container charge will be added to your bill. Long term clients are recommended to purchase a set of Pyrex dishware for a one-time fee of \$100.00. These containers are cost-efficient, environmentally friendly, microwave, oven, freezer, dishwasher-safe and BPA-free. These containers are yours to keep once your service has ended.

Packaging:

Your meals can be packaged in individual portioned containers, or family style. We recommend individual packaging for individuals and couples who may be on different schedules and/or would like to take their meals on the go. Family style packaging is recommended for those who would like to heat a large portion of meals at once for families, or those who eat all together.

All Organic:

Please notify us on your preference in groceries, whether that be conventional, organic, or a blend of the two so we can provide you with the highest quality, and most affordable service we can.

Payment:

Services are to be paid in full (except grocery costs) prior to your first service. Future payments can be arranged on or after your service date at the discretion of The Chef. We accept cash, personal check, PayPal, Square Cash and/or Venmo, and Credit Cards. If you would like us to bill your credit card automatically each week please let us know, we will never charge your credit card unless authorized.
